The Palace
Victoria, Australia

Dear Ena,

I have your letter of 25th Feb. and would answer it this, after it was read to Baba.

1) Beloved Baba had stated when he visited Melbourne that Ena is the heart of the San Juan Baba group in Melbourne. It is therefore left to Ena to remain in direct contact with individuals (those who loved Baba and were interested in Baba and His work in Melbourne). It rests with Ena as to how to proceed with Baba's work.

2) Those who whole-heartedly love Baba and wish to share their love for Baba with others in Australia are the limit between individuals (Australia) and Baba.

3) The use of seductively drugs in general is prohibited by Baba; however, he permits the use of wine with meals. As much wine may be used - within limits - to celebrate some occasions like Birthdays.

4) In the absence of Francis, Baba wants you and His other lovers in Australia to see Bill (Lodge) for any advice with regard to Baba's work or guidance. Baba has explained to Bill different points while he was recently (late February) at home - used for 14 days, and Baba wants him to have Baba's work in Melbourne on those points. Baba believed he met you to consult Bill when you feel confused. Baba would want all His lovers in Australia to solve their petty differences, and to remain united as one Baba-body in the interests of His (the Father's) Game.

With love,
Yours faithfully,
Adi K. Irani

Ena:
From 1st of April 1967, beloved Ena will not have any correspondence unless it is very important and only related to his work. Any correspondence concerning with personal difficulties and problems will not be entertained.
Ena wishes to be absolutely undisturbed from 1st April to the end of this year.
